

SHUBHARTHI ROY

Enterprise UX & Product Design Leader | Systems Thinking | UX Strategy | AI-Enabled Design

shubharthi.official@gmail.com | +91 9007735284 | Pune, India | [LinkedIn](#) | [Design Portfolio](#)

PROFESSIONAL SUMMARY

Enterprise UX and Product Design leader with 13+ years designing complex, regulated digital platforms across Telecommunications, Healthcare, Insurance, Banking & Financial Services and Utilities. Proven track record operating as a design leader within engineering-led, cross-functional organizations partnering directly with Product and Engineering as a peer to translate ambiguous, systems-level problems into scalable, accessible, user-centered solutions. Experienced leading and mentoring design teams and contributing UX strategy and interaction specifications into shared design systems, alongside applying AI-assisted tools as a working method to move faster from intent to working prototype. Comfortable working across global, distributed teams and communicating design decisions to senior stakeholders.

CORE EXPERTISE

Systems Thinking • Cross-Functional Leadership (Product & Engineering) • Enterprise & Platform Product Design • Complex Workflow Design • User Research & Usability Testing • Journey Mapping • Information Architecture • Accessibility & Inclusive Design (WCAG) • Design System Contribution • Service Design • Stakeholder Management & Executive Communication • Team Leadership & Mentoring • Regulated Industries: Healthcare, Insurance, Telecom

AI-ENABLED DESIGN PRACTICE

Actively integrate AI-assisted tools into everyday design practice — using rapid, AI-generated prototypes to demonstrate design direction before formal specs, accelerating research synthesis, and exploring agentic/AI-native workflows as design and engineering practices converge.

PROFESSIONAL EXPERIENCE

Senior UX Specialist – Experience Design | Nov 2022 – Jul 2026

Amdocs - Products

- Led experience strategy for complex, enterprise-scale Telecom CPQ and Order Management platforms as a design leader within an engineering-led, cross-functional organization, partnering directly with Engineering, Product Management, and global Business stakeholders for providers including Optus (Australia) and Elisa (Finland).
- Applied systems thinking to connect workflows, data, and interaction patterns across interconnected enterprise systems, balancing business rules, operational constraints, and user needs.
- Simplified complex decision-making by restructuring task flows, validation logic, and information hierarchy across multi-step workflows reducing quote/order creation time by 20% and validation errors by 15% through information architecture redesign.
- Influenced product and technical direction through UX strategy, design reviews, and stakeholder workshops, translating ambiguous business requirements into clear, actionable design solutions.
- Contributed UX and interaction specifications into a shared enterprise design system, partnering with visual design and engineering counterparts to improve consistency across multiple product teams.

Associate Director – UX Design, Products | May 2022 – Oct 2022

Pristyn Care

- Owned end-to-end UX strategy for consumer websites and mobile applications, from research through execution.
- Built scalable information architecture frameworks and defined UX patterns feeding into a unified component library across platforms.

Lead - UX Design | Sep 2021 – May 2022

Hubble Connected

- Held local design leadership for Baby Tech and Smart Living platforms, setting UX strategy and managing a team of 3–4 designers.
- Redesigned critical monitoring experiences to improve visibility of high-priority insights and reduce cognitive effort for caregivers, applying accessible, inclusive interaction patterns.

Usability & Experience Design Expert | Jul 2019 – Aug 2021

Amdocs – Experience Design Center

- Led UX consulting and digital transformation initiatives for large-scale enterprise platforms, conducting user research, workshops, and experience strategy engagements across global clients.
- Collaborated cross-functionally with clients, business, product, and engineering stakeholders on large-scale experience improvements.

Senior Consultant – User Experience Design | Oct 2018 – Jun 2019

Datamatics Digital

- Led UX research, information architecture, and interaction design activities for enterprise clients, including stakeholder workshops and usability evaluations.

Lead Experience Design Consultant | Sep 2012 – Oct 2018

Cognizant

- Led UX strategy, user research, and stakeholder workshops across multi-market engagements, including enterprise digital transformation programs.
- Managed and mentored 4–6 UX designers, delivering projects across India, Singapore, Norway, UK, and Australia with distributed, global teams.

TOOLS & CERTIFICATIONS

Figma, FigJam, Figma Make, Figma Agent • Axure • Adobe XD • Miro • ChatGPT, Codex, Cursor • Google Gemini, Stitch, Antigravity • Microsoft 365, Co-Pilot

Enterprise Design Thinking Practitioner – IBM | UX Management: Strategy & Tactics – IxDF

EDUCATION & ENTREPRENEURSHIP

Post Graduation-Interaction Design – National Institute of Creative Communication, Bengaluru (2010–2012)

Co-Founder & Creative Head - Design Decode, Nagpur (2007–2010).

Bachelor of Fine Arts (BFA), Applied Art – Central India School of Fine Arts, Nagpur (2005–2009)

CREATIVE PRACTICE

Expressionist Art, Filmmaking & Visual Storytelling
